

# ARENA OF VALOR

**Developer/Publisher:** Tencent  
*Music composed by Jeff Broadbent*

Arena of Valor is multiplayer online battle arena game developed by Tencent's Timi Studios Group. The game is the Western adaptation of Kings of Glory, which is the world's most popular and top-grossing mobile video game. Arena of Valor releases for mobile devices and the Nintendo Switch.

Players divide into two teams of 5 vs 5, and attempt to destroy the enemy's base in a fast-paced and heated match. In Arena of Valor many characters and heroes are available, including DC Comics legends such as Batman, Wonder Woman, Joker, and more. E-sports tournaments around the world have been held to provide high-level competitions for the game, including a sold-out 10K spectator competition at the Shanghai Oriental Sports center, at which Jeff conducted an orchestra and choir music opener to kick-off the event.

Music for the game's soundtrack was recorded by the Northwest Sinfonia at the Bastyr Chapel located in Seattle (known for recordings including The Revenant, World of Warcraft, Resident Evil, and more). Vocalist Merethe Soltvedt and ethnic wind instrumentalist Sandro Friedrich performed on the soundtrack, as well as Jeff Broadbent performing guitarviol and acoustic guitars.
