

HONOR OF KINGS

The King's Expedition

Developer/Publisher: Tencent

Original Honor of Kings Theme composed by Lorne Balfe

Trailer music composed by Jeff Broadbent

Honor of Kings is a multiplayer online battle arena game developed by Tencent Games. Since its release in 2015, the game has held records as the world's most popular and highest grossing mobile video game. The vivid characters, deep lore, and exciting gameplay have made it a phenomena in the video game industry, with many e-sports competitions and updates. For a new chapter of the video game titled "The King's Expedition", an announcement trailer was released.

Jeff Broadbent comments: "Being a part of the Honor of Kings journey has been an amazing adventure for me. When I first composed music for this game in 2015, I knew this was a special undertaking. The elements of Chinese history and culture woven into the experience, along with cutting-edge video game development and mechanics, were the perfect combination. Soon after the game's initial release, it quickly captured the hearts of gamers worldwide. In 2017, I had the opportunity to conduct music from the game to a sold-out tournament audience at the Shanghai Oriental Sports Center."

"For this trailer music, we wanted to convey a sense of creation, the primordial energy that fills time and space. This energy is manifest in the opening of the trailer, as elements of light and dark weave together, interlocking in battle."

"At the conclusion of the trailer, the main theme motif appears, composed by Lorne Balfe, giving a call to arms and heroics for this latest chapter, The King's Expedition."
